

# Nemanja Danev

## Web Developer

Belgrade, Serbia

I am a web developer with several years of experience. I am looking for a position where I can apply my current knowledge and to acquire new skills. With a strong sense of initiative and the ability to quickly adapt to new surroundings, I am able to multitask and work well under pressure. My positive and outgoing attitude ensures that I contribute the best possible outcomes to my team and am always ready to jump in to lend a helping hand.

### PROFESSIONAL EXPERIENCE

#### Frontend Developer, Technical Prime - Web Frameworks

Mall Maverick, Toronto, Canada | Jan 2022 – Sep 2025

- Worked on maintaining, testing and adding new features for a CMS web application which was specialized for shopping malls across North America.
- Developed websites for those shopping malls and connected them with APIs, so the website content was maintained through the above-mentioned CMS.
- Worked on building a web framework project which included the development of an in-house component library and the development of about 20 websites that used the component library, because they all had the same design.
- The websites had to be fast, pixel perfect, responsive, SEO optimized and had to follow accessibility standards which was one of the main focuses.
- Worked on building, testing and maintaining APIs and adding new services using Ruby on Rails.
- Technologies used: **Javascript, Vue.js, Nuxt.js, Vuex, Pinia, Figma, Ruby on Rails, MySQL, Postman, CI/CD, Asana, Monsido (accessability), Cursor AI.**

#### Frontend Developer

Softwarehaus - Belgrade, Serbia | Mar 2020 - Aug 2021

- Worked on a team as a frontend developer following scrum methodology.
- Responsibilities included developing websites according to design specifications and working on an online CV builder application.
- Technologies used: **Javascript, HTML, CSS (SCSS, Bootstrap), jQuery, Vue.js, Laravel (PHP), Github, Figma, Jira.**

### EDUCATION

#### Bachelor Of Economics
